STATION WTOP Radio
CBS Network

DATE October 6, 1975 7:49 P.M.

CITY Washington, D.C.

SUBJECT Full Text

MIKE WALLACE: "Mike Wallace At Large," on the CBS Radio Network.

^{Whitman}
George Whitman served in military intelligence during the Korean War. He took that experience and developed security studies for the United States, and acted as an adviser for some other nations as well.

Well now he has written a novel, his first, one he calls "A Matter of Intelligence."

George Whitman, after this.

*

An intelligence officer, says George Whitman, is one of our people. A spy is one of theirs.

Still, no matter how you look at it, those words, "intelligence," "spy," have taken on a more sinister meaning these days with the revelations coming out of various bodies investigating covert intelligence activities in and out of the United States.

"But," George Whitman says, "the investigations are missing the point."

GEORGE WHITMAN: There was no question as to what was legal and what was not legal. If you want to oversee the intelligence community, the mechanism is there. The issue is people.
